Welcome to the 10th Workshop on Lung Health Respiratory Diseases and Immune Response

Dear Colleagues & Friends,

It's a great pleasure – as Presidents and Chairmen – to welcome you to the **10th Edition of the International Workshop on Lung Health** which takes place from **January 19th to January 21st, 2023**, in **Nice** (Saint Laurent du Var).

In 2023 we celebrate **the 10 Edition** of our **respiratory medicine international family Meeting**. Having restarted in 2022, we look forward to welcoming you in Nice for this celebratory edition with an enthusiastic and rich **“on site”** event, whilst maintaining the **hybrid format** that successfully allows the attendance of participants from remote countries and anyone with travel and job limitations.

The **fil rouge** of the *10th International Workshop on Lung Health - “Respiratory Diseases and Immune Response”* - is the main theme which embraces sessions, lectures and symposia. The pandemic taught us that the **correct reading and understanding** of the **Immune Response** could be one of the **most important allies in medical practice, fighting against viruses, bacteria, pathologies and multifaceted conditions. Not considering** the Immune system in its **complexity and penetrating activity** could bring fatal errors.

During the three Workshop days we will discuss all the **major and outbreaking topics** of Respiratory Medicine: from **Asthma and COPD through to Respiratory Infections**, covering also **Interstitial and Rare Diseases**. Our aim is to give participants and faculty a **new perspective** on these themes, where the immune response plays a **key role** in facing these **pathologies and conditions**.

The 10th Edition of the International Workshop on Lung Health will once again renew its commitment to the experts of tomorrow. The successful activities of **Rising Stars, FUHEL Programme and Posters Calls** continue to be protagonists -of the Meeting.

The **peaceful environment** of the Bay of Nice will welcome us at the end of January 2023, giving us the opportunity of **three constructive working days**. We invite all of you, faculty, participants and pharmaceutical company representatives to send us **your suggestions** and ideas which you retain important to focus on. We look forward to meeting your **enthusiasm in contributing** to the Workshop development and implementation!

We invite you to enjoy the congress and actively contribute to its success!

Yours Sincerely,

The Organizing and Scientific Committee

Francesco Blasi, G. Walter Canonica, Johann Christian Virchow, Stefano Centanni, Tobias Welte

Stefano Aliberti, James D. Chalmers, Fabiano Di Marco, Enrico M. Heffler, Daiana Stolz

TOPICS & TRACKS

The Scientific Programme has been designed to face several challenges, hot topics and emerging issues of the field of Research in Respiratory Medicine. The same topics will be available for the Workshop Calls (Abstracts for Posters and Rising Stars)

Furthermore, to help participants to organise their attendance, based on their area of interest, the programme has been organized in thematic tracks.

**RED TRACK:
Respiratory Tract Infections**

- CAP – Community acquired Pneumonia
- COVID-19
- Bronchiectasis
- Human Metapneumovirus (hMPV)
- Multiple Drugs Resistant (MDR) Bacteria
- NTM
- Respiratory Syncytial Virus (RSV)

**BLUE TRACK:
Asthma & COPD**

- Allergy
- Atopy and Immunotherapy
- Chronic Bronchitis
- Corticosteroids
- Nasal Polyposis
- Neutrophilic inflammation
- Precision Medicine
- Sinusitis
- Treatments & New Drugs

**GREEN TRACK:
Respiratory Rare Diseases**

- Alpha1-antitrypsin deficiency
- ILD – Interstitial Lung Diseases
- IPF – Idiopathic Pulmonary Fibrosis
- Pulmonary Hypertension
- Eosinophilic granulomatosis with polyangiitis (EGPA)
- Lymphangiomyomatosis (LAM)
- Pulmonary Alveolar Proteinosis (PAP) Syndrome
- Primary ciliary dyskinesia (PCD)

Cross-Track Topics

- Artificial Intelligence
- Imaging and other Diagnostic Tools in Respiratory Medicine
- Microbiomics
- New Drugs
- Vaccines

“Career Mentoring” detailed Programme

Thursday, January 19th, 2023

12.30 – 13.30 Introduction of the FuHeL Programme

Mentor: Stefano Aliberti (Italy)

The FuHeL Participants present themselves. Introduction to the programme by the Mentor

13.00 – 16.30 Plenary session “Rising Stars” and first lectures

16.30 – 18.30 FuHeL career Mentoring Session I

Mentor: Amelia Shoemark (UK)

FOCUS ON:

- I have a dream: all participants briefly present their career expectations
- Dreams and reality: how to find a concrete way to proceed
- Pupils and Mentors: how to establish a good path for both

Friday, January 20th, 2023

09.00 – 10.30 FuHeL career Mentoring Session II

Mentors: Amelia Shoemark (UK) - James D. Chalmers (UK) – Stefano Aliberti (Italy)

FOCUS ON:

- 4 W Questions in my career – working group to answer these questions
 - Why?
 - What?
 - Where?
 - With? (or without?)
- The opinion of the Mentors

12.00 - 13.00 FuHeL career Mentoring Session III

Mentor: Stefano Aliberti (Italy)

FOCUS ON:

- From initial training to leadership: which steps you have to face
- Sample from a recent life-story (with the participation of Prof. Francesco Blasi)

14.00 – 16.30 FuHeL career Mentoring Session IV

Mentor: James D. Chalmers (UK)

FOCUS ON:

- Could “research” be my true love? A path for life
- Research vs Clinical: make your time a choice
- Scientific reputation: how to build and maintain it

17.30 – 19.30 FuHeL career Mentoring Session V

Mentor: James D. Chalmers (UK)

FOCUS ON:

- Different approaches to research: the relationship with the pharmaceutical world

Saturday, January 21st , 2023

8.30 – 11.30 FuHeL career Mentoring Session VI

Mentor: Stefano Aliberti (Italy)

FOCUS ON:

- First steps in research: suggestions and tips from attendees – the opinion of a mentor
- How to deal with different research projects: from a clinical study to meta-analysis – differences and approaches
- Literature review: a good tool to explore new horizons?

Wrap up: what have you learnt, what are the take home messages you will bring home. Can you help each other, taking into consideration the different contexts you live in?

Group work: define 3 take home messages to present during the closing remarks

12.10 -12.40 FuHeL Mentors Presentation of the take home messages during the closing remarks

Mentor: Stefano Aliberti (Italy)

Very brief Presentation of the work done with the group – key take home messages as selected by the groups
