WELCOME TO THE XI INTERNATIONAL WORKSHOP ON LUNG HEALTH NEW SCENARIOS

Dear Colleagues,

We are honoured to welcome you to the **XI Edition of the International Workshop on Lung Health**, in the amazing city of Seville (Spain), with its marvellous background of culture and history, combined with the opening to future challenges. The **theme** of the XI International Workshop on Lung Health **"New Scenarios"** embraces sessions, lectures, and symposia. In the last year and half, in the post-COVID era, many interesting news, opportunities and challenges crossed the door of the respiratory world.

During the 3 Workshop days we face all the major and outbreaking topics of Respiratory Medicine: from **Asthma and COPD** to **Respiratory Infections**, reaching also the **Interstitial and Rare Diseases**, focusing on the most recent **updates and perspectives**, in terms of **clinical advances** and **research outcomes**.

More time will be devoted to discussion, interaction, and contribution from the audience with the reconfirmation of the following formats:

The Rising Stars Programme gives the opportunity to young clinicians and researchers worldwide to present their valuable work for the first time in front of an international audience and get suggestions from the faculty members.

The Future Health Leaders Mentoring Programme (FuHeL) 13 selected early carrier researchers and clinicians accompanied during the whole congress experience on a "career mentoring" by 4 mentors of excellence.

The Strolling Poster Sessions host a large number of interesting research projects, to be discussed together on Friday night and give the opportunity to attendees to share projects and results of the most recent crucial world challenges in the Respiratory and related fields.

Due to the emerging news and updates focused on Respiratory Rare Diseases, we retain of crucial relevance to stimulate especially young researchers and clinicians to present original scientific paper on these areas. An **Oral Communication Session** on Saturday Morning is be focused on the mentioned theme.

We thank you all to for contributing to the success of the XI IWLH.
